STRIKERS WILL
BE TAKEN BACKK. OF C. MAKE
GAIN OF 19,000

ST. ALBANS, Vt., Aug. 3.—None of the strikers hired by the Central Vermont Railway during the conductors' trainmen and firemen's strike will have their positions restored to make room for returning union men. This was the statement made by the company today, but it was also stated that the strikers would be taken back by the road to new men and given positions practically the same as those they formerly held, as soon as possible.

A conference between the officials of the Central Vermont Railway and the strikers representing the strikers was held today to determine when the strikers will return to work on the lines in this state. Many of the strikers have been at the station and yards here today to learn the terms of settlement. They are said to be well satisfied with the terms and will accept them as proposed.

PRIZE FIGHTS ARE DOOMED FOR DISEASES OF THE BLOOD

Prize fighting is doomed in the United States. The rapid growth of the membership of the National League to Stop Prize Fighting has led to the membership of the league. Some of the new members and what they have to say:

Representative Russell D. Crane, Cambridge, Mass.:

Allow me to state that I am heartily in sympathy with your campaign to stop prize fighting in every State in the Union. There is no question that the great effect of this war is a disaster to America.

Senator John A. Ederly, Mirror Lake, N. H.:

I am in hearty sympathy with the movement to stop prize fighting in the United States and am very glad to join the National League of Law Makers to carry out effect so far as in my power all laws to this end.

John F. Bartlett, Sandown, N. H.:

I will add my personal and political as far as I possibly can.

Mayor A. F. Pendleton, Brewer, Me.:

As Mayor of the city of Brewer I am glad to see the efforts of this city and I would be glad to be able to help in any way possible.

Believe prize fighting should be abolished. I would gladly have a movement of this kind. When this movement is made I would appreciate it very much if you would make a copy of the American containing said movement.

Senator Arthur P. Morrow, Freedom, N. H.:

I am pleased to have an opportunity to express my views on the subject of prize fighting. It is one of the most brutal and degrading sports that I know of today.

E. G. Loveley, Medford, Me.:

I am ready to do all I can to abolish prize fighting and to improve the health of the people. Prize fighting is a disgrace to the name of the United States.

Willie B. Hall, Caribou, Me.:

I am glad to have an opportunity to express my views on the subject of prize fighting. It is one of the most brutal and degrading sports that I know of today.

Sup. Rufus Gardner, New Hampshire:

Orphans' Home, Franklin, N. H.:

I am very glad to see the efforts of this city and I would be glad to be able to help in any way possible.

E. C. Buzzell, Fryeburg Center, Me.:

I should be glad to see any influence that may have to stop prize fighting in any form in the United States, and from that time on I will do all I can to stop it.

Frank P. Bennett, Jr., Boston, Mass.:

I shall be very glad to assist in any way possible to bring about the end of prize fighting in this country.

Prey M. Odell, Amherst, N. H.:

It will be glad to do with you when I have personal influence I have for the abolishment of prize fighting and also the so-called money sport of boxing.

Representative F. H. Buffum, Winchester, N. H.:

I am with you in all such efforts.

Eugene D. Sanborn, Fremont, Me.:

I am with you in all such efforts. I will please enroll me as a member of your order and please inform me what I can do to aid in the matter.

FOR PEOPLE WHO ITCH AND SCRATCH

Get a 10c. box of Cadum, the new

remedy, at any drug store, and apply a small quantity to any part of the skin which is affected and it will stop the itching at once. It is also good for pimples, rash, hives, also where there is inflammation, chafing or itching. Inside of a day the trouble will be greatly relieved and often disappears completely. This test will prove better than words the remarkable virtues of this new compound. Cadum is like zinc, a safe and sure remedy for Eczema, Salt Rheum and other stubborn skin diseases of that nature. The itching stops at once when it is applied, and the healing process is immediately begun. Full-size boxes of Cadum, containing about four times as much as the 10c. package, are sold for 25c.

Month's Treatment FREE

Including All Medicines Given to All Deaf Patients Who Begin or Renew Treatment at the Offices of the Osmo-Chemic Physicians, 18 Boylston Street, Boston, or Before Aug. 13. There Will Be No Charge for Consultation or the Most Careful Examinations With the X-Ray. Only 9 Days Remain.

The Osmo-Chemic Physicians, the great scientists in order to demonstrate their skill in the cure of Deafness by the new Discovery, will give all deaf patients who begin or renew treatment on or before August 13, 1916, one month's treatment, including all medicines, ABSOLUTELY FREE. This liberal offer will bring the cost of a course of treatment sufficient to cure the most obstinate curable chronic disease with in the reach of all. Any one whose hearing is impaired can avail themselves of this liberal offer. It is limited only as to time. It is clear that such an offer cannot be continued indefinitely. Only 9 days remain.

DON'T WAIT if you are deaf

until you are cured. You are deaf because you have not been treated. You are deaf because you have not been treated. You are deaf because you have not been treated.

NEW TREATMENT FOR DEAFNESS

In the treatment of thousands of cases of catarrh the Osmo-Chemic physicians noticed that many of their patients complained of dizziness or hearing, with head noises of different kinds. On investigation they found that nearly all cases of deafness, head noises, ringing ears and ordinary deafness.

were due to an extension of the catarrhal process along the mucous membrane of the Eustachian tube into the middle ear. In the same way the ear becomes diseased and the hearing affected from the extension of sore throat, from scarlet fever, diphtheria, measles and typhoid fever, and this condition is as distinctly curable as deafness from catarrh of the head and throat. In fact, under the Osmo-Chemic treatment all conditions of deafness, except those where the drum of the ear is totally destroyed, are curable.

Age and duration of disease is no detriment to cure, as cases where the patient has been deaf for years have been cured.

The Osmo-Chemic treatment, supplied by the Osmo-Chemic Physicians, is a new discovery. It is a new discovery. It is a new discovery. It is a new discovery.

FIND SPECIFIC FOR DISEASES OF THE BLOOD

A specific has been discovered by Dr. Paul Ehrlich, director of the Institute for Experimental Therapeutics of Frankfurt, Germany, for blood diseases which have ravaged the Western world for the last 100 years.

In speaking of the discovery Dr. Samuel J. Mettler of the Rockefeller Medical Institute declared it to be epoch-making in that it opens up a wide field of possibilities in medicine, as it proves that at least a disease has been discovered of overcoming the poisons, or substrate animals, which cause many diseases, as already the way has been shown to neutralize the bacteria or vegetable germs which cause other complications.

"There is only one other specific known in medicine," said Dr. Mettler, "specific for malaria, and that was hit upon by accident. This has been invented by a series of experiments, which have only been made possible in the last five years through a series of other discoveries, making animal experimentation possible, the story of which will be considered one of the most dramatic in medical history."

"Dr. Ehrlich attacks disease by injection in the muscles of the patient of an organo-chemical preparation, the full name of which is diarsylarsen-sulfonamide, but which he calls for short No. 606, as it is the six hundred and sixth which he has experimented with. It has as yet only been used in a few cases for the treatment of blood diseases."

At a meeting of the Berlin Medical Society for the treatment of blood diseases reported from the use of No. 606.

"Doctor after doctor reported absolute cures. In no case was more than a single dose administered, and it was declared as the highest authority that the prognosis characteristic of the disease, which had been predicted, was not only improved but was cured, and the patient was well in a few days."

Dr. Mettler went on to explain that the trouble has been in the past to discover some substance which would fight the disease germs without affecting the patient's health.

The new use is five grains of the compound, in a capsule, Dr. Mettler stated, and the patient is well in a few days. The compound is called for short No. 606, as it is the six hundred and sixth which he has experimented with.

WANTS SMITH

CHICAGO, Aug. 3.—Frank Smith, major league ball and expert plant juggler, says he is not sure whether or not the new plant, which is being built by the Chicago League club, according to reports on the ground today around the new home of the White Sox, will be a success.

Special Impetus was given this rumor by the presence here of Frank Navin, boss of the Detroit club. President Comiskey, who is in charge of the new plant, is of the opinion that the new plant, but it is the general supposition that the head of the championship club will be forced to try and shove across a big deal.

South Siders recently learned that Comiskey thought to trade himself off for a big league club, but he has decided to stay present, owing to his injured ankle. It is said that he is of the opinion that the new plant will be a success.

It is known, however, that Navin has been in the city for some time, and the deal may mature late to-day.

SOCIETY SEKS PLEASURES IN FOREIGN LANDS

By ELIZABETH ELLIOTT.

Still society keeps up its innocent gliding about and still the result is more and more the strenuous pursuit of pleasure. Rich outgoing summer at once becoming one of the most restful things.

Mrs. R. Van Buren Thayer of the Fenway is one of those about arriving in Europe. Mrs. Thayer is to leave the summer at Clarendon, and will go direct to Paris, where she is to join Mrs. R. Van Buren Thayer, Jr., and her three young granddaughters. They will have several weeks at Versailles and in that vicinity.

Mr. Robert Jordan has also been to join his parents, Mr. and Mrs. E. D. Jordan and Miss Dorothy Jordan, for the concluding weeks of their stay abroad.

Mr. and Mrs. Charles A. Stone and family of Beacon street, who have been at their beautiful country home in Rocky Point, Plymouth, for the early season, are to leave the remainder of the summer at well as the winter season.

They are taking over motors and will winter extensively in England, Scotland and France, reaching Italy for the weather becomes cold.

Among the latest returning wanderers are Mrs. Celine Leitch and Miss Louise Agnes Wills, who have been traveling extensively abroad for the benefit of Miss Wills's health. Mr. and Mrs. Wills were at Stockton of Commonwealth avenue, who have been traveling in Germany and Switzerland. Mrs. Wills is the daughter of Mr. and Mrs. Wills, of Boston.

Mr. and Mrs. Wills, of Boston, who have been traveling in Germany and Switzerland. Mrs. Wills is the daughter of Mr. and Mrs. Wills, of Boston.

Mr. Joseph H. Brown has also returned after a visit of several months with his wife in Antwerp. Miss Annie Lyman has also returned and is accompanying her beautiful estate at Newport.

Mr. and Mrs. Charles D. Fearing, Jr., of Dedham, Mrs. Louise A. Stone and family of Beacon street, who have been at their beautiful country home in Rocky Point, Plymouth, for the early season, are to leave the remainder of the summer at well as the winter season.

It is said that the recent and most interesting of Ireland. Mr. and Mrs. Doreen (Doreen) Deane, and her husband, are to spend the summer at Antwerp. Mrs. Deane is the daughter of Mr. and Mrs. Deane, of Boston.

Mr. and Mrs. Charles D. Fearing, Jr., of Dedham, Mrs. Louise A. Stone and family of Beacon street, who have been at their beautiful country home in Rocky Point, Plymouth, for the early season, are to leave the remainder of the summer at well as the winter season.

It is reported that Miss Eleanor Fenn will appear with the band and jumpers in the Madison Horse show and New which is to take place on the beach the first of August.

One of the most interesting events which all the North Shore summer people will be interested in is the horse driving which will be held at the end of the week will be held to drive a horse and a carriage. The judges will be the judges of the horse driving which will be held at the end of the week will be held to drive a horse and a carriage.

SIX-DAY SALE FOR WOMEN SHOPPERS

The second annual sale of the Boston Herald, which was opened yesterday at Star's, No. 25 at 11th street, for women's summer goods, has been a great success. At the sale was advertised to begin at 8:30, many shoppers were on hand yesterday half an hour before the doors were opened. The sale was among the goods for the summer, and the sale was a great success. The sale was among the goods for the summer, and the sale was a great success.

Y. M. C. A. IS ELKS' CIRCUS AT WINTHROP

Work on the new \$100,000 home for the Boston Young Men's Christian Association will be started the first of this October when the building which now stands at the corner of Arlington and Newbury streets will be torn down to make room for the new edifice. It is planned to have the association installed in the new home on the first of January, 1912, or a year and a half from now. The new structure will be one of the finest of its kind in the city, and it will be a great credit to the association. MILK CONTRACTORS LOSE B. & M. FIGHT

Judge Hitchcock in the Superior Court today denied the petition of the Boston Milk Company and the B. & M. Milk Company for an injunction restraining the Boston Milk Company from drawing its milk cans from the city. The court held that the law was arbitrary in its application and that the B. & M. Milk Company was entitled to its share of the milk business.

MUST HAVE FRESH AIR IN SCHOOLS

I place health above education. Workings cannot be expected to take their part in the struggle for success. I believe in starting children right. Give them a fair chance. Pungy and diseased children never make good students. By having plenty of fresh air in our school buildings I believe we will do much toward checking tuberculosis in the young. —Mrs. Elie Flagg Young, superintendent of Chicago schools.

Answer the questions yourself before you read OUR answer to them. This is good practice in writing for young men—good practice in thinking for elder men.

No. 8.—In your opinion, will the influence of the interests (the trusts) increase or be diminished in this country in the near future?

The "influence of the interests," which means the power of the trusts, of organized industry and commerce, will go forward steadily without interruption.

Just as steadily as early military feudalism advanced and grew, UNTIL THE PEOPLE AT LAST CONTROLLED IT AND OWNED IT. JUST SO STEADILY WILL TO-DAY'S INDUSTRIAL FEUDALISM advance and grow without interruption UNTIL THE PEOPLE CONTROL IT and own it.

The trusts are destined to be infinitely more powerful than now, infinitely more ably organized.

And that will be a very good thing in the long run for the people. The trusts are the people's great teachers, proving that destructive, selfish, unbrotherly competition is unnecessary.

They are proving that the genius of man, free from competition, can deal with the entire industry of a nation or of a world. They are saying to the people, "You work under our ORDERS. One power can own and manage all industry."

It is a little hard for individual ambition just now. But in time
**THE PEOPLE WILL LEARN THE LESSON AND WILL SAY TO THE
 TRUST OWNERS:**

Thank you very much. We have learned the lesson. We see that it is possible for one power to own and control all industry, all manufactures, all commerce. AND WE, THE PEOPLE, WILL BE THAT ONE POWER.

Just as the individual feudal lords organized their little armies in France, and just as the French people themselves now have all those armies in one—UNDER THE PEOPLE'S POWER—so the industries organized NOW by the barons of industrial feudalism, one by one, will be taken and put together by the people, UNDER THE PEOPLE'S OWNERSHIP.

That, by the way, will be the beginning of civilization on earth.
But only the BEGINNING.

No. 9—Is individual extravagance or national extravagance a matter of serious consideration?

Individual extravagance is bad for the individual—it makes him worry, it makes him a slave. National extravagance may be bad for the nation—we do not know of any nation that has tried it. You can't call "national extravagance" the insane extravagance of an upper class in the Roman decadence, or in any other ancient or modern stage of national corruption. It was not **NATIONAL** extravagance when Louis XV. spent forty millions in one year—while his people starved.

BY X. If you mean by "national extravagance" the spending of money plentifully by individuals and by the nation as a whole, the answer is that such extravagance is a very good thing. The people get WHAT THEY MUST HAVE. THEY HAVE BATHUBS NOW BECAUSE THEY FELT THEY MUST HAVE THEM. AND THEY GET THE MONEY TO PAY FOR THEM. They have pianos for their daughters, and horseless wagons, and fingerless pianos, and wireless telegraph, and five-day ships, and rubber-tired automobiles, BECAUSE THEY FELT THAT THEY MUST HAVE THEM. It's a good thing that they HAVE felt that way, for that's why they got them.

The individual employer will give to his employees just as much AS HE MUST GIVE THEM.

And the big men at the top of our nation, who rule, who handle the money, will give to the ordinary citizen **JUST AS MUCH AS THEY MUST GIVE HIM.**

And when the ordinary citizen makes it clear that he wants his piano and his automobile and his bathtubs and his stove-pipe hat, **HE WILL GET THOSE THINGS. AND POLITICAL ECONOMY WILL HAVE TO ARRANGE ITSELF ACCORDINGLY.**

The more the people WANT the more they GET—and the better for them.

No. 10—Did "Jack" Johnson do the colored or white race a service by knocking out Jeffries?

Johnson rendered a service to one white man—Jeffries. That former champion will now probably live many years, and WORK for a living, instead of drinking himself to death in a short time.

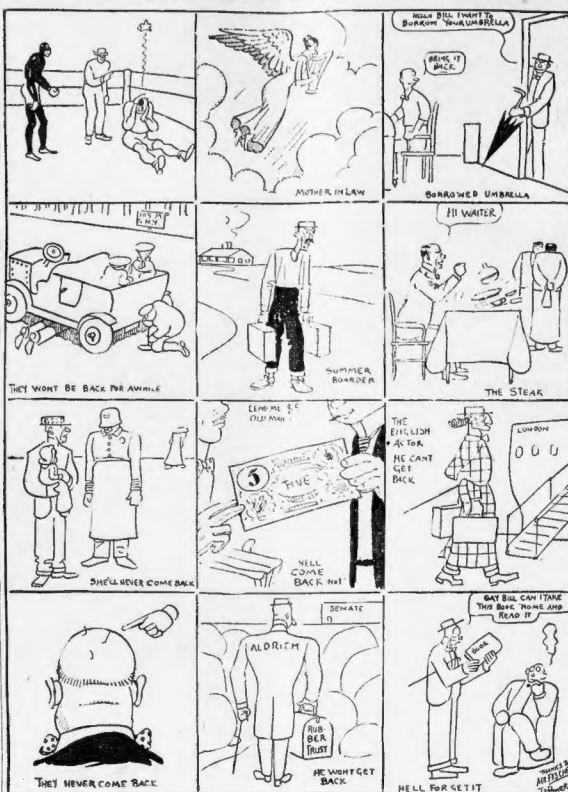

Johnson probably also rendered a service to his own race when he beat the overrated, overstimulated gentleman at Reno. For a man brutal enough to hate the negro, who lacks opportunity; brutal enough to despise a man for his color, the average, ignorant and worthless "race hater," is just about brutal enough to be vastly impressed by a prize-winning decision.

The ignorant ruffian that used to despise the negro will respect him, now that the strongest fighting negro has thrashed the strongest fighting white man.

Of course in the real world of civilization such a fight has NO meaning—no more meaning than would a fight between a brown gorilla and a red gorilla in Africa; they have shared and known and understood each other.

In any one of many millions of cells in the brain of a thinking man there might be born to-morrow a thought that would be more important **AND ACTUALLY MORE POWERFUL** than all the fighting with fists, clubs, swords and guns ever done on this earth.

The **EVENING AMERICAN** guarantees to advertisers the largest circulation by far of any daily newspaper in Boston and over 200,000 more than the next highest evening paper, and over 75,000 more than all the other Boston evening newspapers combined. Circulation books open to all.

AN Illinois boy, twenty-one years old, went to the chief of police the other day and confessed that he had been a burglar and a sneak thief since he was fourteen.

In his seven years of crime this boy has accumulated thousands of dollars worth of electrical apparatus, all of which he has hidden in a secret cement cave in a cellar.

This boy is the only son of a rich widow, and has always been looked upon by the average citizen of his town as an exemplary young man. He was caught this time only because he had an accomplice, and the accomplice turned State's evidence.

Clever boy, the widow's son, wasn't he? Rich, good looking, well mannered, he chose to spend his life a thief.
He did it, they say, because he loved to deceive people.

Clever idea again, this deceiving people business; and I'll warrant every boy who grew up with him knew him all the time for just what he was, a degenerate sneak.

They may not have said anything about it, but they knew it just the same.

These clever people, who love to hug themselves in the delusion that they are deceiving the whole world—what pitiful, self-deceiving fools they are. I know a man who is always on both sides of any fight that comes his way.

He eggs on both of the combatants, and pretends to each one that he is fooling the other.

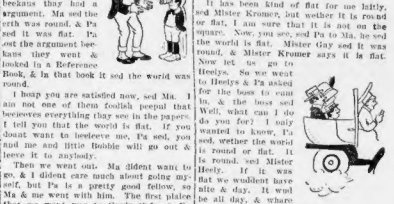

There is one thing that the simplest child in the world can recognize at a glance—honesty. He may not know how he recognizes it, but he recognizes it from the first.

uses it just the same, and all the clever rascals in the world can never take away from him the feeling of distrust that, rise in his heart every time a smooth deceiver tries to talk him over. What a lot of trouble these thieves and plotters and schemers would save themselves if they'd just be upright and downright, fair and square, good old-fashioned honest—that's all.

Poor things! I suppose they are born crooked, and can't help it. Let's pity them—and give them a wide side of the street alone.

IT'S a table for two, with the breeze in your face;
An' a breath of perfume, an' a rustle of lace;
It's Rhine wine and soft-sellers an' cold champagne;
An' a poplar air with the latest frappe;
An' you light a cigar, with your stomach full up;
An' she tells of the pranks of her blood hot pup;
An' the lights come twinklin' from city an' bay;
An' the patchy black shadows go slinkin' away
Where the roof garden sin't, an' the fire escapes weep

With the cry of the patient: "Dear Lord, give us sleep!"

*Say "hello" to vocal and grime,
Where it's slave or die;
But oh, the gummy baby folks
That live an' know not why,
Come along to Hester street,
T'win' of your eyes;
Asphalt, sundogs with the heat,*

IT'S head her for sea with her nose to the breeze;
It's anything for comfort any way you please;
Easy chair to lounge in, a lively *vis-a-vis*,
An' Mother Carey's *chaises* sportin' on your lee;
Bridg' to while away the hours, ev'ry make a heart;
No'n' o' fare surpassin' the Waldorf & a carte;
Nuthin' much to think about save a kind o' fear
O' *Waldorf's* here.

You'll get tired of even that 'fore the winter's here.

Turn about for Heister street;
Air like furnace breath;
Children huddled under feet;
Fices, an' crows, an' death;
He's a deppin' any work,
Mothers wild of eye;
But ah, the starvin' baby folks
That 'gint in live an' 'gint!

It's hurrah for the fields where the daisies are high:
An' it's robbin' a blackberry vine on the sly;
It's a picnic for three, an' a nap in the shade
For the drooping brown eyelids of master an' maid
While the Queen of the Maytime closes her book
To smile at the sleepers, her soul in her look
An' the birds an' the frogs with a lullaby tune
Sing the dream of the night to the ears of the moon.

Sunken eyes an' doopercances
 Hand in hand go by;
 But oh, the waller' baby folks
 They fight to live, an' what
 Walk about in Hester street—
 Rascous widge an' loud;
 Fear in ev'ry face you meet,
 Ev'ry shoulder bowed;

"My heart leaps up when I behold
A rainbow in the sky:
So was it when my life began;
So it is now I am a man;
So be it when I shall grow old,
Or let me die!—Wordsworth.
